

MICHELLE NEWBERRY

I provide remote and virtual bookkeeping and accounting services. I provide an affordable and efficient way to meet all of a law firm's accounting needs, specializing in:

- general bookkeeping,
- payroll,
- financial analysis,
- QuickBooks training,
- Escrow/Trust account accounting.

I have worked in the accounting field for over 18 years and have a bachelor's and master's degree in Accounting from the University of North Carolina Wilmington.

I enjoy bringing law firms the many benefits of virtual accounting. Virtual accounting can be more efficient because you are only paying for the hours actually worked. You are not spending money on the other expenses that come with hiring an office employee such as: time wasted when there is no work to be done, employee benefits or employment taxes, and extra space taken up at another computer desk. Your accounting is taken care of by an experienced individual who is well trained in online accounting.

You can learn more about me and my services on [my website](#).
