WHAT WE DO

ORGANIZATIONAL DESIGN & RESTRUCTURING

The right structure is the foundation of an efficient and profitable firm. We provide the blueprint for success, whether you are launching a new firm, restructuring a practice group, creating new member tiers, or redesigning your management committee.

BUSINESS PROCESS & SYSTEMS IMPROVEMENT

Inefficient workflows and outdated systems can be a significant drag on profitability and morale. We get into your firm's engine room to diagnose and fix these issues, redesigning your core business processes and systems to make your firm run more efficiently and effectively.

PROFITABILITY IMPROVEMENT PROJECTS

When a practice group or the firm as a whole is underperforming, a targeted initiative is often needed. We lead these projects, conducting a detailed analysis to identify the root causes of the performance issues and implementing a clear, actionable plan to improve profitability.

MERGER & LATERAL ACQUISITION SUPPORT

A successful acquisition is about more than just the deal. We provide critical support throughout the process, from initial due diligence and financial modeling to the crucial post-merger integration planning required to ensure a smooth and successful transition.
