

Strategic Plan Implementation & Accountability

- **The Challenge:** Even the best strategic plans often fail due to a lack of execution, as firm leaders get pulled into the daily pressures of client work.
- **Our Approach:** We function as your firm's virtual strategic planning department, providing ongoing project management and disciplined oversight to ensure your plan is implemented effectively.
- **Key Deliverables:** A detailed Implementation Plan (e.g., in MS Planner or a similar tool), regular Progress Reports, and facilitated Accountability Meetings to keep initiatives on track.
